I missed the last 20 or so minutes of the conf. call yesterday. Was that the next steps to draft a memo?

That is what I wanted to double check. Mike is asking for a particular letter. We don't have any. Thanks! Can you check with Cadmus to see that they are working on the memo?

The link I sent you is the only document that contains comments and responses. I did not see any comment letters on the website.

There are no comment letters there, just groups of comments. Mike is asking for a letter. Its not there, right?

The response to public comments has “new” by it and is the third link down

Can you back me and double check both the CD and the DOGGR website for the public comments? I am about to report to Mike they are nowhere but I want to make sure I;m not missing them. Thanks!
